

Plutora Named a “Cool Vendor 2014” by Gartner, Inc.
Unified Release and Environment Management via the Cloud

SAN FRANCISCO, CA - April 30, 2014 – Plutora Inc., a leader in Enterprise Release Management and Test Environment Management today announced that it had been named as a “Cool Vendor in IT DevOps for 2014” by Gartner.

Plutora provides a unique enterprise SaaS solution that helps companies plan, manage and control complex IT releases and test environments across their enterprise in a simple and transparent manner. Plutora brings together everything required to operate a robust and scalable release management and test environment management functions within large companies.

“We are honored to be recognized by Gartner in this year’s Cool Vendors report,” said Dalibor Siroky, co-Founder and Director at Plutora. “We have had some great customer success stories this year, and believe this recognition from Gartner confirms that our continued innovation in release management and test environment management has had a substantial positive impact on helping organisation release faster and also be in control”

Each year, Gartner identifies new Cool Vendors in IT DevOps and publishes a series of research reports evaluating these innovative vendors, their products and services. As one of the world’s leading information technology research advisory companies, Gartner defines a Cool Vendor as a company that provides technologies or solutions that are innovative, impactful and intriguing.
